THURSDAY, AUGUST 21, 1924

Co-Ops Sales Big

Over 21,000,000 pounds of tobacco has been sold by the Tobacco Growers Co-operative Association since August 1, and this new record for rapid sales will be followed by a payment of $2,300,000 to association members in the old belt of Virginia and North Carolina on September 15th, according to announcement made at today's meeting of the directors of the tobacco co-operative in its Raleigh headquarters.

The payment of $2,300,000 to association members in the old belt next month will bring their total receipts in cash from the 1923 crop to approximately $14,000,000 or seventy-five per cent of the bankers' valuation on their deliveries.

According to A. R. Breedlove, general manager of the leaf department, the success of the association in selling its 1923 tobacco may be judged by the fact that only 17,000,000 pounds of bright flue-cured tobacco from the 1923 crop now remain unsold by the association as compared to 50,000,000 pounds of the 1922 crop which it held at this time last year.

Beneficial results of the commission sent by the associated growers to European countries were reported by general manager, Richard R. Patterson, at today's meeting of the board. He stated that the association has now secured one of the largest and best known concerns in continental Europe to act as its exclusive selling agency for the foreign trade. The association has also completed shipments of its tobacco to the Austrian Government, resulting from the visit of the official commission from that country who supplied their entire needs for Virginia-Carolina tobaccos by purchases from the Tobacco Growers Co-operative Association. It was also learned today that the Austrian officials took back with them a formula for the manufacture of cigarettes from American tobaccos which was supplied to them at their request by General manager, Patterson, of the tri-state association.

Deliveries to the association's warehouses in South Carolina have increased rapidly, and are considerably in excess of those which marked the opening of the 1923 session in that state.

No tobacco of the 1924 crop will be received from new members who signed the marketing contract in Eastern Carolina after September 2, but farmers of the Central Belt markets in North Carolina may sign up their 1924 crops with the tobacco association until September 16th, when most of its warehouses will open for the season in that district, according to the announcement that was confirmed at today's meeting of the board.

Fed Up

Papa—"I hear that Charles Green is going to be married next week." Little Rupert (whose ideas on the subject are somewhat confused)—"The last three days they give him every thing to eat that he eats for, don't they, papa?"

Cardinal Virtues

According to the ancients, the cardinal virtues were the virtues of justice, prudence, temperance and fortitude. An attempt to moderate these led to the classification, benevolence, justice, truth, purity and order.

Hard Work

After leaving the cause of righteousness for a man's conscience, you have to exhibit consistency in messages, hot applications and a galvanic battery to get it working.

School Opening

The Appomattox High School will open September 18th, which is one week later than usual on account of late crops. The faculty has been completed with the last member, Prof. R. W. Wilkins selected as the Agricultural instructor. Prof. Wilkins will begin September 1st, and aid principal Crawley in getting affairs ready for the opening.

The school board at its last meeting ordered all the buildings painted and repaired so as to have them ready for the opening. Prof. Crawley yesterday was at Hotel Monn, where he went to interview Mrs. R. N. Ware who is conducting the hotel there, for his matron for coming session here. He is much pleased with Mrs. Ware, who will have four children to bring with her. She tells him that a number of Bedford pupils will probably come this session. Mrs. Ware was a Miss Goodwin, of Bedford county, and is a woman of unusual business ability and very strong personality. She has been a teacher, but now is interested in boarding house and hotel work. Prof. Crawley is very fortunate in case she finally decides to come.

The faculty this year completed consists of the following—Prof. Crawley, Prof. L. M. Wilkins, Misses Kate O'Brien, June Hubbard, Aileen Houser, Elaine McDearmon, Mrs. Ola Furbush, Mrs. Helen Welch, Misses Julia McCain, Mildred Trent, Eddie Hardy, Nellie Robertson and Pannis Scott, and Miss Kate Franklin, musical director, Mrs. C. F. James in charge of the cafeteria and Mrs. R. N. Ware is expected as housekeeper.

If there are any pupils in this county who desire rooms at the school communate at once with the principal before it is too late. The outlook for the school now looks good although many farmers are hesitating about sending their children on account of fin ncial difficulties.

Educate your child as it is the best legacy you can leave it and remember the "Knows how is it." The boy or girl without high school education is practically cut off from all lines of promotion. Do not fail to give them the best that can be had. Our school offers the best.

All schools are expected to start in the county on September 16th, which is also one week late.

The Grim Reaper Passes

On Sunday evening, August 10, about 8:30 o'clock, the "Dark Horse", with its pale rider passed through the little valley of Spring Mills, like a rushing wind, terrible in its swiftness, and like a thunder bolt from a clear sky, in its suddeness, and with its ever-ready scythe grasp in strong and terrible hands, reaping here, and there, like a prowler of the night, seeking whom he may destroy, leaving in his wake, a trail of death, sorrow and heartache, this time it was our beloved neighbor, friend, sister, companion, counsellor and guide, Mrs. Charles Harvey, we all lovingly called her Nannie May, but she was ready. All yes she was ready to meet this quick summons, and as death rode so quickly by, we felt like shouting after him, Oh! death where is thy sting? the debt is paid and she goes a victor to a mansion prepared, eternal in the Heavens. There comes to us all, a last time for everything. She attended church that morning heard her last sermon, taught her Sunday School class the last time, sang her last song, said her last prayer, then drove to sister Fanny Harvey's, near Union Hill, for a dinner in family re-union, enjoyed the day was in usual good spirits, and after the drive home did her evening work, said her last good night to the passing day, retired, was suddenly stricken, and lived but a few moments, her husband being the only one present at the time. Our allotment is one day at the time, and from her life, and death, we learn, that we should so live, that with every setting sun, we can feel that should the "pale rider" pass our way during the dark hours of the night, I am ready. Her maiden name was Cardwell, and she leaves many brothers and sisters who will miss her so much. She was laid to rest at New Concord church at the same hour with her uncle, Joe Cardwell. The strong manly boys she had taught in Sunday School were her pall-bearers and the girls of her class flower-bearers. The love and devotion shown by this class to their teacher, was apparent in the way they carried out those last sad rites. The community has suffered a great loss in her passing, she was a neighbor, could be, also postmistress at Spring Mills. Our hearts go out in sympathy to her husband in his loneliness, may God bless, comfort and guide him.

X.

Free Examination

Free chest examination by state specialist in Appomattox county at the following places:

Clear as Mud

Said a lawyer in addressing the court, "If this argument is not clear your honor, I have another that I equally conclusive".

STATE CAPITAL

Legion Gives Defense Day Strong Support.

Richmond—To co-operate with the government and those patriotic organizations throughout the United States that will take part in the observance of National Defense Day, September 12, the Virginia Department of the American Legion is backing the project.

In spite of the fact that many organizations are criticising the government for holding a day of this kind on the grounds that it is militant and has for its purpose the creation of propaganda for a strong military nation, the American Legion, the members of which have seen war in all of its horrors, have also seen the national weakness and unpreparedness of 1917.

The Legion takes the stand that a strong national defense is the salvation of our nation, and that our government should take an inventory of our assets for war, and that we should know our strength, not only in industry, but in man power, at all times.

National Defense Day will be utilized by the Legion as part of its program in obtaining the passage of the universal draft bill, sponsored by it. Most of the opposition to National Defense Day is from extreme pacifist organizations, the Legion declares.

Give Up Catching Fish For Fertilizer.

Owners of fertilizer factories in the eastern side of the State, where menhaden fish are usually caught in nets to the number of millions daily, have about abandoned the industry, said W. McDonald Lee, Fish and Game Commissioner. Mr. Lee attributes this to the presence of many blue fish and mackerel in large numbers off the Virginia coast this season, these fish preying on the menhaden. The latter are unfit for human consumption, due to being very lean and clad with oil. These fish are captured and ground into fertilizer, there being about fifty steamers engaged in the enterprise of enormous daily expense.

Mr. Lee thinks, too, that the heavy rains of the spring may have been a factor, the fresh water driving the menhaden off shore to the warmer waters of the ocean. It may be that these fish, after casting spawn, may return to Virginia waters when it is cooler and the predatory fish have turned south for the winter. The run of shad and herring in the early spring was unusually heavy, but for some reason the menhaden so far are very scarce. As a fertilizer, says Mr. Lee, the putrefied menhaden are unsurpassed.

State Holds Rank As Apple Producer.

Virginia maintains her position as the third largest producer of commercial apples, according to the report issued as of August 1 by the Federal Bureau of Crop Estimates. The estimated production is lower than the first report, but still higher than the final estimated production for the crop of 1923.

The government estimate places the production at 3,336,000 barrels. This is still about 600,000 barrels higher than the estimate recently issued by the secretary of the Virginia State Horticultural Society.

The estimated production for the State of Washington was 8,446,000 barrels, which gives it first place among the States. New York is given second place, with 4,415,000 barrels commercial production.

Well-Known in Virginia.

General Lawrence Tyson, of Knoxville, Tenn., nominee for the Democrats of that State for the United States Senate in the primary of last week, is well-known in Virginia. He is father-in-law of Kenneth N. Gilpin, a former member of the Legislature from Clarke and Warren counties. General Tyson is a frequent visitor to Virginia.

Told Of Appointments.

Postmaster Stewart was notified of the appointment of John M. R. Lewis as acting postmaster at Lyndhurst and Mary Silas Nock as acting postmistress at Horsley. The Lynchburg appointment was made by President Coolidge.

Will Lead Discussion.

Bolling H. Haxall, member of the Virginia Industrial Commission, will lead the discussion on forms and procedure at the annual meeting of the International Association of Industrial Accident Boards and Commissions meeting in Halifax, Nova Scotia, August 26 to 30.

Fredericksburg—Gatesville, progress is being made by citizens and directors of the Fredericksburg Fair Association in arranging for the fair to be held here September 23-26. A number of extensive improvements are being made to the exhibition grounds. The grandstand is being completely rebuilt, and the main entrance will be changed as a new street has been built, connecting the new concrete highway with Cedar Lane avenue, and entrance this year will be from the highway.

Where Women Are Barred.

According to the census there are 76 occupations of the total number of listed occupations in which no women are found, while there is but one occupation that is without men. The last enumeration, even listed 200 men as chambermaids and 11 men as surrogates. Only one woman was listed as a butler.

Health Insurance for the Whole Family

CHEVROLET

Without counting the daily utility of a Chevrolet for going back and forth to work, shopping or taking the children to school, etc., its value in saving doctor's bills, broadening your mental horizon and keeping the whole family physically fit, amounts to more than the cost of the car and its upkeep. It is more of an essential to the modern family than anything else but a home. Chevrolet meets the requirements of the modern family because it is economical to buy and maintain, because of its excellent appearance and riding comfort, because it can be depended upon, and because it is so easy to drive that any member of the family can use it.

Liberty Sunnay School will have their annual picnic at the Pretlow spring east of town Friday. The editor acknowledges an invitation to be present at the feast to eat lamb with the pickers.

Clinton Watkins was killed in a fight over whiskey last Friday in Campbell county near the Appomattox line, and in the neighborhood of the Pat Johnson murder two years ago. Wm. Green and Raymond Perkins were wounded in the fight. Papers report this affair from Stonewall when as a matter of fact the fight occured in Campbell county, and the matter will be aired in the Campbell court. The parties are all colored.

As a result of the shooting of Walter Harvey, reported in this paper last week, Davy Austin, the darkey that did the shooting is in jail. When arrested on the charge of shooting he led the officers to a still near by, which was broken up by sheriff McKinney and deputy O'Connor. Walter Harvey will probably be charged with operating the still and Davy with shooting at the October term of court here.

Appomattox County Club Council, consisting of County Agent, organized club officers, and leaders met in W. H. Byrne's office on last Wednesday. Those present were: W. H. Byrne, Louise Shirey, Bessie Gunter, Bettie Morris, Christine Garrett, Richard Harvey, Eston Harvey, Kate O'Brien and Mrs. Willis Harvey. An all-day county club rally was planned for Saturday Sept. 13 at Appomattox High School Auditorium. The program will be published later.

R. G. Nunally

Died at his home near Vera, Tuesday, in the 60th year of his age. He was returning from spring with pail of water when stricken down and died before anyone could reach him. Dr. Christian pronounced his death from burst blood vessel. Deceased came to this county from Washington county, Va., about two years ago. He is survived by wife and four small children, who have much sympathy in their bereavement. Remains were interred yesterday at the home of W. B. Davidson, Thos. L. McFadden officiating at the grave.

FIRESTONE TIRES
The Source of Extra Mileage

FIRESTONE has come to the strategic position of being able to give greater tire value, through its twenty-two years of experience and growth.

Only the cumulative knowledge that Firestone possesses, the highly developed manufacturing and distributing organization, and the gathering of a corps of skilled designers and builders, could account for Firestone quality, sold at prices so low as to create an extraordinary tire value.

The volume of Firestone production, permits buying economies, and the reduction of overhead expense. This, in turn, has made it possible to adopt superior, but costlier processes that have resulted in a big mileage increase.

Notable among these is double gum-dipping—a special Firestone process of first importance. In the majority of cord tires the individual plies of cord fabric are merely coated with rubber—known as "calendering." Firestone immerses the cord fabric in vats of liquid rubber then applies two coats of rubber to each ply.

The purpose of this is to overcome internal friction—the wear caused by one cord rubbing against another. The carcass thus built, is livelier, stronger, capable of delivering more mileage.

The above is cited merely as an example of how Firestone proceeds to give you greater value. In tread design and compound, in air-bag curing, rubber blending and tempering, bead and sidewall construction, you will find other advantages that enter into the ultimate result—uniformly greater mileage and increased enjoyment from your car. The volume of Firestone distribution enables us to offer the following reduced prices.

30x3	Special Tires	$ 6.95	Tube	$1.35
30x3½	Cord "	10.00	"	1.50
32x4	" "	21.00	"	3.10
32x4½	" "	27.35	"	3.50
30x3½	Special Tires	$7.35	Tube	$1.50
31x4	Cord "	19.10	"	2.96
33x4	" "	22.00	"	3.35
33x5	Truck Type "	36.95	"	4.50

Firestone prices carry a saving in dollars and cents that you cannot afford to miss. Come in and let us talk it over with you.
